

MATERIALITY & CARE

The Meltingpot is made from pressed Kooij prototypes and colour tests. Each piece is an amalgamation of studio history, expressed through an intuitive, one-off colour pattern.

Cleaning is advised with a gentle dish detergent and microfibre cloth. Much like wood or stone, the solid plastic will develop a patina of use over time. For scratches, a woodworker or kitchen surfacer can effortlessly buff the table back to its original state. Please ensure that the plastic does not come into contact with acetone or other chemical cleaners.
